THE RAYMOND LION

The Raymond Golden Jubilee Celebration has come and gone—everybody should be well pleased. The weatherman gave us the scare of our lives—but co-operated with us one hundred percent. The Lions Club sits with about five thousand dollars hanging on the chance of a perfect day. The wonder is not, if we get rained out but will we have to put on the show and the weather frighten away the paying public. One good slip up on good luck and the little old Raymond Lions would be the rest of our lives trying to get out again. Three fourths of our expense would have to be met rain or no rain.

The Rotary Club took over the Parade with backing from the Town and they did a very fine job. The various representations of the history of Raymond was well portrayed and the display was both long and very good. Let's all give them a big hand for an excellent bit of work.

Maurice and his committee were diligent enough to beat the rain and mud and the crabbing of those who would not help, and finally put the arena and track and fences in shape for a very snappy Stampede Show. These boys behind the lines are the real backbone of a good Stampede. It is fun and looks big to get a pretty shirt and be a judge or some other official on the shoots or on a horse—and these men are very important to the success of it all—but the men who work days and days and days before and after the big celebration day, never get much credit. Ray Dewey, Reg Cooper, Karl Wilde, Herb Wilde, Will Wilde and Rayo Woolf, and a score of others work on this job year after year all for free and nobody pays any attention to their work. I should not name people because two or three dozen will always be left out. These men are determined to keep the Raymond Stampede going as an historic tradition from the days of Ray Knight and the birth of Canadian Stampedes.

The big show was exceptionally well organized and was run off in record time. The Bank of Montreal Staff and a dozen others handled the tickets and gate in record time with little friction. Grant Card and Jim Hudson with some Scouts, parked more cars than Raymond ever saw before. There were very close to nine thousand people in the grounds. That is a record crowd for Raymond—old and young seem to think that was the biggest crowd on Monday that Raymond has ever seen.

A few cried about the price being too high. The admission has been raised twenty-five cents in twenty years. The cowboys are being paid four times as much as they were then and the stock that was supplied by co-operative citizens for years, now costs us about a thousand dollars to put on the show. If any money is ever left over you can rest assured that it will be used, without any executive expense for some very worthy community project. More Raymond people cried about the high cost of the admission than all others put together. The crowd in general were well satisfied and complimented the management on a very fine show. Raymond, and Clark Lund in particular, have a reputation for putting on the fastest show in the South. The cowboys and the men behind the shoots and in the catch corral and all others connected with the show take pride in backing Clark for a fast show.

The Raymond Lions Club wish to thank every citizen who helped in any way to assist this big Jubilee Stampede. We may not take time to thank you properly but be assured that we realize that without your extra help this Raymond Stampede (continued on page three)

A Citizen Speaks

The Mayor and Council,
Raymond, Alberta

Dear Sirs:

Who is responsible for the installation of that watering pipe near the Municipal office?

Pin a medal on the guy that proposed such a move. What about the Town Planning Committee? Or is there such an organization?

Of all the cow-town bit of brains, that watering pipe right in the centre of the city takes the medal. Perhaps you intended to celebrate the Jubilee year by reminding folks of away back in the horse and buggy days. You certainly did a bang up job. Just as long as that water pipe remains where it is, citizens and others will never forget the early days of Cow Town Raymond.

I have heard several people up town refer to "the boggy municipal front" and like myself, wonder who thought up such a brain wave.

It doesn't make sense when you Town officials ask citizens to clean up and paint up when you turn right around and build a watering trough right in the centre of our fair city. Cut out asking the citizens to clean up. Instead, put up a sign right where the old flag pole used to be, with this on it.

"Come this way folks and see the old fashioned watering trough. We are back in the days of 1900. All we lack is the barrel."

Last Tuesday evening Mr. and Mrs. Harold McKean were two very surprised and two very happy people when they were honored at a Surprise Party at the Legion Hall. The occasion was their Silver Wedding Anniversary.

The Guests, about 85 in all, were greeted at the door by Mr. and Mrs. Mutt Ralph and Mr. and Mrs. Bush Sabey and Mrs. Bill Attwood was in charge of the Guest Book.

The evening started out on a light note with a mock wedding being performed. The Wedding Party, in old fashioned costumes, took their place under a lovely bower of Spring Flowers while Mrs. Emma Dahl played the Wedding March.

Mr. and Mrs. Azel Stevenson started off the very entertaining program by singing a duet after which Harry Fairbanks favored them with a tap dance. Jeanine Jensen rendered two solos followed by a reading by Ada Orgill. Miss McGilvary and Miss Veen both rendered vocal solos.

Before Ray Attwood, on behalf of the many friends gathered, presented the Honored Couple with a beautiful chrome Kitchen Set, song-writers Marie Matkin and Helen Sabey dedicated a humorous song to them.

The co-operation was excellent and it is believed that the parade has never been surpassed by that of any small town in this district.

Again the committee wishes to say "Thanks" to all who participated in the parade and to the hos of people who did such a fine job of decorating the floats and cars etc.

Mr. and Mrs. Bert Love of Picture Butte were visitors in town over the week-end at the homes of Ellis Hensinger and Leslie Palmer.

Wilson McCarthy of Denver, the son of the first Mayor of Raymond, and his sister Marjorie Woolf were among the visitors for Raymond's Golden Jubilee.

A Friend Of The Cowboys

On the 7th day of the 2nd month The arrow of death was aimed At a pioneer and a friend of ours Which this year '47 has claimed.

This man we all knew and loved so well

"Oscar Ray Knight" was his name. A pioneer of the days gone by Also known for his calf roping fame.

Ray was also known to have started All the rodeos in the west. Managing and performing as contestant And was known as one of the best.

He was one of the greatest of ranchers One of the first and the few And we'll remember him as a great symbol

A pioneer and a friend we all knew.

He was the "Pride" and the "Friend" of the cowboys,

Always lending a helping hand. Fighting off hardships and sorrows Which came in building this land.

But now this pioneer has left us In this atomic age that's here.

But we'll always cherish the memories Which were always so helpful and dear.

Now friends this story is ending And these memories shall always remain

Of the pioneer "Friend of the Cowboys"

"Ray Knight" of the rodeo game.

An Open Letter to the Legion Ladies Auxiliary

It is with deep appreciation that I express my thanks and the thanks of all the members of the band to the Ladies Auxiliary to the Canadian Legion for their generous donation of \$25.00 to further the work of the High School Band.

This was a very admirable gesture on the part of the ladies in view of the fact that their donation was totally unsolicited—they simply saw the need and stepped forward with their money.

Thanks again.

Grant Erickson
Band Leader

Friends will be interested to learn that Mr. and Mrs. Cliff Peterson (Lois Fairbanks) have a baby girl which they have named Sherri Lynn.

Let's Get Rid of T.B.

The Committee has about completed its survey to estimate the number of people in Raymond who wish to have this service. This work has been hampered by the closing of school and by bad weather we have had. If you have not signed a white card asking for this free X-Ray service be sure to give your name to Mrs. Ruby Holland during this next week. After the Request Cards are collected and counted, the committee will send your family a pink Appointment Notice. Be sure to check for time and place. If you co-operate with the Committee you should not be ten minutes for the whole process. You should receive appointment cards within ten days. If by chance you do not receive an appointment come in when the clinic is here and you should not have long to wait for the service even then. If a big majority of the community come on appointments the few who are left can be worked into the schedule without much difficulty.

If the public will co-operate with the committees every person in our district should have this free X-Ray Service with very little effort on the part of the individual. Remember this service has already been paid for from your Christmas Seal contributions. Be there and get your money's worth.

WORKS WELL IN ANY WEATHER

Like the industrious and worthy farm hand that always strives to further the best interests of his employer, Esso Gasoline and Esso Diesel fuels can always be depended on for top notch performance. Perfectly blended, they start well on cold harvest mornings, respond instantly when you push down on your accelerator and are misers for economy—they help you get the greatest number of acres per barrel.

You can depend on all three

ESSO GASOLINE—A high quality gasoline for high compression motors. Its anti-knock qualities help your tractor develop maximum power and efficiency. It is 'tailored to the season' for better starting and smooth performance in all kinds of weather.

ACTO GASOLINE—A high quality gasoline for medium compression engines that cannot take full advantage of the extra power and anti-knock qualities of Esso Gasoline.

would not be possible. It takes three times as many people to run the Stampede as there are enrolled in the entire local Lions Club. We may direct it and are quite willing to take all credit if there is any—but the Lions Club does not put on the Stampede—the Citizens of Raymond still put on the Celebration.

An added feature that we think should be followed up was the platform show at night. A bit of tough luck rather spoiled the latter few numbers but as a whole it was very well received and plenty of people would like to see it followed up with another one next year. The fireworks added much to the evening and brought a fine climax for the whole celebration. With a little more despatch and finesse this would be a very attractive addition to our day. If experience helps to build a better Celebration we should have a honey—we certainly are getting experience.

SUGAR Beef!

Here's a steer obviously Red Label from stem to stern. Why do we call him Sugar Beef? Because he is one of thousands of such cattle that are a direct result of the sugar beet industry of Southern Alberta. You see, sugar is not the only product of the sugar beet. Livestock feeds of amazing productivity result from both field and factory

processing. The result is that more food energy comes from an acre of sugar beets than from any other Canadian crop. A further result is that you enjoy better meat, the farmer enjoys a more balanced farm program, and the West contributes to its own richness. All because you LOOK FOR THE MAPLE LEAF on the bag of sugar you buy.

The Canadian farmer is not a socialist, he is a capitalist.

He wants to own his own farm, his stock, and his implements. He wants to be his own master, to go and come as he likes, and to manage his business in his own way.

Yet, if a Socialist government were to come into power in Canada, it would probably find farming the easiest industry to socialize.

It would be the easiest because farmers, more than any other class of people are being organized and led along the socialist path of collectivism and government control.

The farmers are intrigued by the glowing promises of Socialism—not under that name, but under such attractive names as producer controlled—controlled marketing, regulated production, and the like. They have been told that they can have all the advantages of private enterprise, all the independence and freedom of action they want, and still enjoy the certainty of regulated markets, supported prices and no bothersome competition. What a paradise!

No Socialist talks to the farmer about taking over his land, requiring him to take out a license to grow this or that crop, or penalizing him for disposing of his crop at his own good pleasure.

All they tell him is that other people should be controlled, that he and his fellow farmers should be able to control the marketing of their own products and thereby assure themselves stable prices at profitable levels.

Of course it is understood that in order to bring this about there would have to be some form of organization of a multiplicity of organizations with rules and regulations and authorities to enforce them. But he is told that these rules and regulations will be made and directed by farmers in the interests of farmers, and a fatherly government will always be on hand to give them whatever help and authority they need.

By such blandishments as these the farmers are being enticed into all kinds of schemes that promise them control of the markets for their own products, but which in the end will cost them the control of their own business and reduce them to the status of hired men on their own farms.

Good Grooming FOR MEN by Ralph Edwards

COMFORT AND WELL-BEING

Did you ever buy a shirt that shrunk; that made you rage at the shirtmaker? The shirt may have looked nice in the store but you failed to notice that it didn't carry a recognized pre-shrunk label and after it was washed a couple of times, the collar tightened, sleeves shortened. Well, that's what we mean about comfort and it applies to shirts, suits, socks, underwear, pyjamas and almost everything a man wears. Let one item of clothing be uncomfortable and the whole day is ruined. So the first prerequisite of good grooming is to be sure that whatever you buy is guaranteed comfortable for its lifetime.

Second, be sure that whatever you buy carries a known brand line label because you'll know that the maker hasn't skimped where material is needed. To get necessary room for arm action, striding out or just lazing around the house doesn't justify buying a size too large. Definitely not! Buy your correct size. If you don't know your size ask the salesman to check your measurements and then buy a good make of garment no matter whether it be shoes or hat or anything in between.

Comfort in clothes means well-being because no man can look and feel well-dressed if his clothes are too tight. So, well-being when applied to comfort helps make one feel better and look better.
